

Technology Information Exchange:

A TRADOC ARCIC and Industry Partnership

COL Steven Bullimore
Chief, Science and Technology Division
Capabilities Development Directorate,
Army Capabilities Integration Center (ARCIC)
US Army Training and Doctrine Command

TRADOC: Victory Starts Here

Technology Information Exchange (TIE)

- ❑ The **Technology Information Exchange (TIE)** Program is an opportunity for two-way discussions on Research and Development efforts between industry and the ARCIC to facilitate the ARCIC mission.
- ❑ The **TIE** is designed to explore industry R&D efforts, provide industry a mechanism to focus R&D efforts toward Army FOCs and Technology Shortfalls, and enhance Army's understanding of industry's R&D efforts.
- ❑ Director, Capabilities Developments Directorate hosts a 3 hour session each month with a different company. The **TIE** is attended by CDD Division Chief and other external agencies as appropriate.
- ❑ The **TIE** is not a forum for a sales pitch or a platform to request money for further research. **TIE** results cannot be used in any form of negotiations.
- ❑ A summary of discussions, approved by SJA, is forwarded to the participating company as feedback on the topics presented at the **TIE**.

TIE Summary

- ❑ The Technology Information Exchange (TIE) Program provides a two-way dialogue mechanism to address Army “warfighter” needs and to help industry Focus their Research and Development resources and efforts.
- ❑ The ARCIC, Science and Technology Division is responsible for facilitating the TIE Program.
